HERBELLA

An Online Fruits, Herbs and Vegetable Shopping System

SYSTEM OVERVIEW

The main aim of this project is develop an online portal to shop Fruits,Vegetables and Herbs by providing the complete information of the product.Fruits and Herbs has an important role in our day to day life.Some Fruits,Vegetables and Herbs are very much essential for our health.They are packed with neccessary vitamins ,proteins ,carbohydrates etc.. and keep us free from diseases.This online fruits and herbs project focuses on creating a fit and healthy lifestyle.

SYSTEM STUDY

Existing Online fruits, vegetables and herbs system of shopping fruits, vegetables and herbs is fruitless unhandy where the user goes to the market and picks up th things that fancy him, without knowing the health benefits of the products.

In proposed Online fruits, vegetables and herbs system it is very much useful and live. Customers can visit the portal where all the fruits and herbs are available along with there health benefits. Customers can buy those products base on their requirement.
